SUBJECT: Cover Letter for Eric S Bossler

To Whom It May Concern:

Hello. My name is Eric Bossler. I am a working professional in the Seattle area who is in the midst of a voluntary career transition. Currently, I am employed within the aerospace industry as a Contracts Specialist, however I currently am enrolled in a full stack web development program through the University of Washington in hopes that I am able to transition into a more technical role in the technology industry.

My current experience has helped me develop into a well established subject matter expert on the items I have been tasked with over the years. I've been with Spirit AeroSystems since August 2012, having held roles as a Pricing Specialist, Contracts Administrator, and Contracts Specialist located partially on-site at a large tier-1 customer location in Seattle. The latter role provided me the opportunity to transition from Wichita, Kansas to the Seattle area.

In May 2012 I graduated from Benedictine College with a BA in Economics (with a minor in history). While working at Spirit, I attended graduate school full time at Wichita State University. By December 2015, I was finished with graduate school and was awarded a MA in International Economics.

I believe my background in economics, business, and finance complement my new skills from the web development program to make me a prime candidate to support your team.

Thank you for taking the time out of your day to read this letter. I look forward to hearing from you to discuss potential opportunities for me to help your organization achieve its goals.

Sincerely yours,

Eric S Bossler
